

Diemolding Corporation Environmental Policy

Diemolding Corporation, its officers and employees are committed to the following:

1. Conduct operations appropriate to the nature, scale and environmental impacts of its activities and products.
2. Continual improvement and prevention of pollution through reduction and elimination of waste. To conduct research and development in order to devise innovative technologies that foster longer-term solutions to environmental issues.
3. Operate within all applicable laws and regulations, anticipate environmental issues when appropriate and to take voluntary initiatives to improve environmental performance.
4. By utilizing the established objectives and targets, review, modify and improve Diemolding's environmental performance.
5. Will communicate to Diemolding employees, information about the environment and to encourage their individual responsibility at work, at home and in their community.
6. To provide customers and the community, Diemolding's environmental policy upon request.
